| Research Background & Areas of Interest: | <p>My research program during my postgraduate work was centered on preparing & testing herbal compounds as pharmaceutical agent to be used as paste for treatment of recurrent aphthous ulceration.</p> <p>My current researches include issues in drug information services; poisoning and clinical toxicology, Medication counseling and compliance; ambulatory care services and therapeutics; community pharmacy practice- pharmacy intervention, developing pharmaceutical care tools; Pharmacotherapeutics in critical care patients; drug utilization; drug usage evaluation; and quality assurance. The main objective of these works is to check the quality of local health care produced by health provider & send recommendations about the result for the good pharmacy practices in concern.</p> |
